ORDER

Appellant, AMEC Construction Management, Inc. (ACMI), appealed the contracting officer's deemed denial of its claims for approximately \$25 million, asserted in connection with the construction of the United States Courthouse and Federal Building in Sacramento, California. In a memorandum opinion and order issued on July 15, 2005, and received by the Board on July 25, 2005, the United States Court of Federal Claims, exercising its authority under the Contract Disputes Act of 1978, 41 U.S.C. § 609(d) (2000), to transfer

and consolidate suits arising from one contract that are filed both at one or more agency boards and at the court, granted the Government's pending motion to transfer the subject appeal to that court. *Morse Diesel International, Inc., v. United States*, No. 99-279C, et al. (July 15, 2005).

In accordance with that decision, this appeal is hereby **DISMISSED WITHOUT PREJUDICE**. The Board's records will be transferred to the court.
